
SUPPORT RECYCLING IN OUR SCHOOLS AND HELP US EARN CASH AND SCHOOL SUPPLIES

The PTA is actively involved in recycling some of the trash that is produced during school lunches and turning it into cash and school supplies.....**AT NO COST to us or you!**

Recycling bins are set up in the cafeterias to collect and recycle items that normally would have gone into landfills. In addition to the standard items recycled in school like cans, glass, and plastic bottles, we also recycle the following items:

• JUICE POUCHES - ANY BRAND

We receive \$.02 per pouch recycled. To date, we have recycled over 15,000 pouches!

• CHIP, PRETZEL, POPCORN, ETC. SNACK BAGS – ANY BRAND

We receive approx. \$.02 per bag recycled. To date, we have recycled over 3,200 snack bags!

• DONATE MY COKE REWARDS POINTS

Send bottle caps or box codes from any of the Coke products shown below into school and deposit them into the bottle cap bucket in the cafeteria. Each code is worth points. The points are then redeemed for school supplies and playground equipment.

To date, we have earned pencils, crayons, a basketball, and a soccer ball.

• INK CARTRIDGES

Your used printer ink cartridges are worth money to us! Any brand. The company will credit us per cartridge submitted.

• PLASTIC SCREW-TOP BOTTLE CAPS

Although plastic bottles are easily recycled in our community, the bottle caps are not part of the process. The Aveda Company will take almost all types of plastic screw-top bottle caps and recycle them into new bottles and caps for their products. We are trying to make a conscious effort to keep the caps from the hundreds of beverages consumed in our schools out of the trash.

Please encourage your child to take a little extra time when disposing of his/her garbage by placing the items in the appropriate bins.

We thank you for your cooperation in this effort to make a difference in our schools and community.

Any questions, contact Barbara Marchitto at barbmarchitto@optonline.net
